# VPS PRODUCT LIST

## Brake Service

Part No.	Description
608334	Premium-Dry Brake Fluid
867928	DOT 3 Brake Fluid
544775	Non-Chlorinated Premium Auto Parts Cleaner, 13 oz.
881214	Non-Chlorinated Premium Auto Parts Cleaner, 55 Gal
881215	Non-Chlorinated Premium Auto Parts Cleaner-10% VOC, 13 oz.
881216	Non-Chlorinated Premium Auto Parts Cleaner-10% VOC, 55 Gal

## Cooling System Service

Part No.	Description
VP006	Radiator Protector Pack & Sealer Kit
VP005	Radiator Protector Pack Kit
VP004	Water Pump Lubricant & Protector

## Engine Oil Service

Part No.	Description
VP051	Complete Oil System Cleaner
806221	Top Treat Oil System Cleaner
571214	Oil Additive

## Fuel System Service (Gasoline)

Part No.	Description
884531	All Engine Clean First Defense Kit
884352	All Engine Clean Fuel Rail Cleaner
675380	3 Part Plus Fuel System Kit
VP071	3 Part Fuel System Kit
805410	HD Rail to Combustion Kit
VP086	Fuel Rail & Throttle Body Cleaner
VP076	Fuel Rail Injector Cleaner
666725	High Performance Fuel Injection Kit
507674	2 Part Fuel System Service Kit
679741	Complete Fuel System Treatment
679710	Super Concentrated Fuel Injector Cleaner
507457	EGR Cleaner

## Fuel System Service (Diesel)

Part No.	Description
VP201	Light Duty Diesel Fuel Injector Treatment
VP205	Light Duty Diesel Fuel Rail Kit
VP202	Heavy Duty Diesel Fuel Injector Treatment
VP206	Heavy Duty Diesel Fuel Rail Kit

## Power Steering

Part No.	Description
860342	Power Steering Service Kit
860343	Power Steering Fluid
859119	Power Steering Service Kit for Honda/Acura
859070	Power Steering Fluid for Honda/Acura

## Transmission Services

Part No.	Description
VP094	Automatic Transmission Service Kit
VP093	Automatic Transmission Protector, Conditioner and Sealer
508216	Manual Transmission Fluid
886238	CVT Protector, Conditioner and Sealer
886395	CVT Service Kit

## Differential / Driveline Service

Part No.	Description
819195	75W90 Full Synthetic Gear Oil
819196	75W140 Full Synthetic Gear Oil
667859	Differential, Transfer Case & MT Cleaner
VP011	Limited Slip Additive

## Other Services

Part No.	Description
507460	All Season Heater & A/C Odor Eliminator Kit (including hose)
VP105	A/C Intake Spray Odor Eliminator
507671	All Season Ultra Foam Evaporator Cleaner
590772	Hose Adapter for Odor Eliminator Kit
591833	Battery Terminal Service Kit
884327	15K Vehicle Restoration Kit
666727	Mini-Tune Maintenance Kit
795505	Windshield Cleaner

## Equipment (Gasoline)

Part No.	Description
VP055	Complete Intake/Fuel Rail Device
863637	Fuel Rail Adapter Set
872447	Fuel Rail Device with Gauge
695072	Dual Canister Tool
873110	EGR Canister Tool
887872	EGR Adapter Set

## Equipment (Diesel)

Part No.	Description
887884	Diesel Fuel Rail Canister
887888	Light/Medium Duty Diesel Adapter Set
887886	Heavy Duty Diesel Adapter Set

KEY: ELIGIBLE FOR STICKER BUCKS

# BRAKE SERVICE

Over time, brake fluid can become contaminated, which can lead to early failure of brake components. Moisture absorbed by the brake fluid causes brakes to feel soft, spongy, or not work properly. Instead of simply bleeding the brakes, this service replaces the entire system with new brake fluid and can be performed by one person in half the time of the bleeding procedure. This service helps prevent sluggish brake response and extend the life of brake components.

## Premium-Dry Brake Fluid

(Part No. 608334, 48 fl. oz.), Dust Covers (Part No. 888494) not included

- Helps prolong the life of brake components
- Maintains proper ABS performance
- Removes contaminants and moisture from the brake system that can cause brake failure
- Premium-Dry formula helps control and minimize the amount of moisture that is introduced into the ABS system
- Compatible with conventional brake fluids
- Exceeds DOT 3 & DOT 4 specifications
- Fluid exchange equipment needed

## DOT 3 Brake Fluid

(Part No. 867928, 32 fl. oz.)

- Excellent thermal and chemical stability
- Provides corrosion and oxidation resistance
- Protects and conditions elastomer seals
- High-boiling formula prevents vapor-lock
- Excellent lubricity and cold-flow properties
- Fluid exchange equipment needed

## Non-Chlorinated Premium Auto Parts Cleaner

(Part No. 544775, 13 oz. or Part No. 881214, 55 Gal)

- Helps Eliminate Brake Squeal & Chatter
- Ideal as a Brake Cleaner, Carb & Choke Cleaner, & Throttle Body Cleaner
- Fast drying – leaves no residue
- Low Odor – turbo jet nozzle
- Not for sale in all states. Due to variances in state regulations, please contact the Valvoline Regulatory Affairs department at [regulatoryaffairs@valvoline.com](mailto:regulatoryaffairs@valvoline.com) for the most current information on shipping restrictions.

## Non-Chlorinated Auto Parts Cleaner – 10% VOC

(Part No. 881215, 13 oz. or Part No. 881216, 55 Gal)

- Removes brake fluid, dust, dirt, oil & grease from metal parts
- Dries quickly without residue
- Contains no chlorinated solvents
- 10% VOC
- Available for sale in all 50 States

# COOLING SYSTEM SERVICE

The cooling system removes excess heat from the engine. Approximately, one third of the heat generated from fuel combustion is dissipated through the cooling system. Over time, antifreeze/coolants lose their protective quality, allowing corrosive deposits to form. Scale and deposits on the walls of the cooling system can reduce the transfer of engine heat to the coolant, causing the engine to overheat. This can lead to cooling system failure and expensive repairs.

A Cooling System Service using Valvoline™ Professional Series Cooling System products provides additional protection from engine overheating by using advanced detergents to thoroughly clean the radiator. Additional sealers are added to help to prevent leaks.

## Radiator Protector Pack & Sealer Kit

(Part No. VP006, 3-Part Kit)

- Removes rust, scale and oily residue from the entire cooling system
- Helps prevent engine boil-over in the summer and freeze-up in the winter
- Protects against rust and corrosion – enhancing the life of the cooling system
- Helps prevent water pump damage and minor leaks from developing
- Formulated to stop cooling system leaks
- Fluid exchange equipment needed

## Radiator Protector Kit

(Part No. VP005, 2-Part Kit)

- Removes rust, scale and oily residue from the entire cooling system
- Helps prevent engine boil-over in the summer and freeze-up in the winter
- Protects against rust and corrosion – enhancing the life of the cooling system
- Helps prevent water pump damage and minor leaks from developing
- Fluid exchange equipment needed

## Water Pump Lubricant & Protector

(Part No. VP004, 14.5 fl. oz.)

- Removes rust, scale and oily residue from the entire cooling system
- Helps prevent engine boil-over in the summer and freeze-up in the winter
- Protects against rust and corrosion – enhancing the life of the cooling system
- Helps prevent water pump damage and minor leaks from developing

# ENGINE OIL SERVICE

Oil plays a major role in keeping the engine lubricated to ensure that all parts are able to move properly. Over time, an engine can acquire build-up that restricts the contact and flow of oil. When oil is unable to get to all of the engine parts, it results in wear leading to poor engine performance. Performing an oil system service will remove the buildup and clean the engine. Taking a proactive approach to an engine's maintenance can slow down the aging process and prolong the life and efficiency of a vehicle.

With extended oil change intervals, tighter tolerance of modern engine design and today's severe driving conditions being the "norm," many vehicles are at risk of sludge formation. The accumulation of sludge leads to reduced fuel economy, reduced horsepower, and even engine failure. Engine replacement can be costly; this is where an oil system cleaning can save money.

## Complete Oil System Cleaner

(Part No. VP051, 1 Gal)

- Removes sludge, deposits, and varnish from the engine, optimizing the ability of the oil to perform and allow for better heat transfer
- Protects metals from corrosion
- Helps to restore fuel economy, horsepower, and engine efficiency
- 100% Solvent free chemistry
- Easy application, no specialized equipment needed
- Used motor oil is drained from the vehicle prior to performing this service – new oil & filter required once complete

## Top Treat Oil System Cleaner

(Part No. 806221, 16 fl. oz.)

- Removes sludge, deposits, and varnish from the engine, optimizing the ability of the oil to perform and allow for better heat transfer
- Protects metals from corrosion
- Helps to restore fuel economy, horsepower, and engine efficiency
- 100% Solvent free chemistry
- Easy application, no specialized equipment needed
- Product is added to motor oil prior to performing an oil change

## Oil Additive

(Part No. 571214, 11 fl. oz.)

- Full synthetic, maximum protection oil additive
- Uses premium chemistry proven to provide excellent oxidation, wear, and deposit protection
- Uses unique dual-detergent system to help maintain engine cleanliness
- Boosts oil chemistry above API industry standards
- Recommended every 5,000 miles.

# GASOLINE FUEL SYSTEM SERVICE

Deposits in the fuel system reduce fuel economy, impair drivability, and interfere with the proper operation of an engine. These deposits are a by-product of the combustion process and need to be removed on a regular basis.

These innovative new cleaners were formulated strong enough to attack the baked-on carbon build-up in modern engines, but are safe enough for use in all gasoline engines. The unique cleaning process circulates a mist into the air stream to prevent puddling and to find the toughest-to-reach deposits in an engine. The All Engine Clean system helps prevent and address drivability issues caused by deposit build-up, especially in modern engines.

Valvoline Professional Series has developed a line of fuel products and delivery mechanisms to clean both GDI and Port Fuel Injection (PFI) fuel systems to enable your technicians to service your customers' ever changing needs.

## All Engine Clean First Defense Kit

(Part No. 884531, 2 Part Kit)

- Proprietary Intake Cleaning Formula
- Low Smoke, Low Odor Chemistry
- Low Toxicity, No Known Carcinogens
- Helps Improve Injector Flow and Prevent Misfire
- Proven performance tested on many current market vehicles
- Additional equipment needed

## All Engine Fuel Rail Cleaner

(Part No. 884352, 18 fl. oz.)

- Effective on both PFI & GDI engines
- Safe for catalytic converters and oxygen sensors
- Helps remove deposits from injectors to improve flow

### WHAT TYPES OF ISSUES CAN RESULT FROM CARBON BUILDUP?

Signs:

- Check engine light
- Hesitation
- Reduced fuel economy
- Greater emissions
- Rough idle
- Cold morning start
- Loss of power

<sup>†</sup> Corporate Average Fuel Economy (CAFE) Enacted by Congress in 1975, CAFE's purpose is to reduce energy consumption by increasing the fuel economy of cars and light trucks

• IHS Auto Insight and Worldwide Polk Analysis 10/2015

# GASOLINE FUEL SYSTEM SERVICE

## 3 Part Plus Fuel System Kit

(Part No. 675380, 3-Part Kit)

- Most effective and efficient for PFI fuel systems
- Cleans the entire air and intake system simultaneously
- Easy application using the dual canister tool and adapter set (see pg. 9)
- Additional cleaning using the Complete Fuel System Treatment tank additive

## 3 Part Fuel System Kit

(Part No. VP071, 3-Part Kit)

- Formulated for PFI fuel systems
- Cleans the throttle body using throttle body cleaner and swab
- Two options for cleaning the intake manifold, plenum and runners using an intravenous device or the Complete Intake / Fuel Rail Device (see pg. 9)
- Additional cleaning using the Super Concentrated Fuel Injector Cleaner tank additive
- Additional swabs available (Part No. 888722)

## HD Rail to Combustion Kit

(Part No. 805410, 2-Part Kit)

- Removes deposits from fuel injectors, intake valves and combustion chamber
- Easy application using the Complete Intake / Fuel Rail Device and Adapter Set (see pg. 9)
- Fuel pump and fuel return must be disabled or re-routed. Shop air acts as the fuel pump, pushing the cleaner into the fuel system at the appropriate pressure
- Additional cleaning using the Complete Fuel System Treatment tank additive

## Fuel Rail & Throttle Body Cleaner

(Part No. VP086, 17 fl. oz.)

- Removes deposits from fuel injectors, intake valves and combustion chamber
- Easy application using the Complete Intake / Fuel Rail Device and Adapter Set (see pg. 9)
- Fuel pump and fuel return must be disabled or re-routed. Shop air acts as the fuel pump, pushing the cleaner into the fuel system at the appropriate pressure
- Additional cleaning of the throttle body using the S-Tool

# GASOLINE FUEL SYSTEM SERVICE

## Fuel Rail Injector Cleaner

(Part No. VP076, 12 fl. oz.)

- Removes deposits from fuel injectors, intake valves and combustion chamber
- Designed to be used with our cleaning hose with regulator apparatus and adapter set (see pg. 9)
- Fuel pump and fuel return must be disabled or re-routed. This product contains a self-propellant and is pressurized to act as the fuel pump

## High Performance Fuel Injection Kit

(Part No. 666725, 2-Part Kit)

- Removes deposits from fuel injectors, intake valves and combustion chamber
- Designed to be used with our cleaning hose with regulator apparatus and adapter set (see pg. 9)
- Fuel pump and fuel return must be disabled or re-routed. This product contains a self-propellant and is pressurized to act as the fuel pump
- Additional cleaning using the Super Concentrated Fuel Injector Cleaner tank additive

## 2 Part Fuel System Service Kit

(Part No. 507674, 2-Part Kit)

- Removes deposits from fuel injectors, intake valves and combustion chamber
- Two options for cleaning the intake manifold, plenum and runners using an intravenous device or the Complete Intake / Fuel Rail Device (see pg. 9)
- Additional cleaning using the Super Concentrated Fuel Injector Cleaner tank additive

# GASOLINE FUEL SYSTEM SERVICE

## EGR Cleaner

(Part No. 507457, 16 fl. oz.)

- Improves power and performance
- Functions by removing deposits from EGR passages
- Designed for both gasoline and diesel engines
- Additional equipment required (see pg. 9)

## Mini-Tune Maintenance Kit

(Part No. 666727, 2-Part Kit)

- Designed to provide consistent peak performance through extreme temperatures, loads and stress
- Helps improve acceleration, power and performance
- Premium chemistry proven to provide excellent resistance to oxidation, wear and deposits
- Improves rough idle and hesitation caused by deposits

## Complete Fuel System Treatment

(Part No. 679741, 10 fl. oz.)

Provides all of the benefits of the Super Concentrated Fuel Injector Cleaner PLUS:

- Improves maximum engine performance; specifically fuel economy
- Cleans and protects the entire fuel system in just one application
- Removes stubborn combustion chamber deposits
- Protects against deposit formation in GDI engines when used regularly
- Recommended every 12,000 miles or once a year
- Easy application - no specialized equipment needed

## Super Concentrated Fuel Injector Cleaner

(Part No. 679710, 10 fl. oz.)

- Helps restore fuel economy, horsepower and overall drivability
- Decreases rough idle and throttle hesitation
- Dissolves and removes deposits, gums, & varnish from the intake valves and fuel injectors
- Safe for ALL fuel system components including catalytic converters and oxygen sensors
- Recommended every 3,000 miles or every oil change
- Easy application - no specialized equipment needed

# DIESEL FUEL SYSTEM SERVICE

## Diesel Fuel Rail Kit - Applications for both light duty and heavy duty vehicles

(Part No. VP205, 2-Part Kit for light duty applications) • (Part No. VP206, 2-Part Kit for heavy duty applications)

- Helps restore fuel economy, power and overall drivability
- Helps cure hard starts, rough idle and throttle hesitation
- Dissolves and removes deposits, gums and varnish from the entire diesel fuel system
- Helps reduce harmful particulate emissions and black smoke
- Additional equipment needed (see pg. 9)

## Diesel Fuel Injector Treatment - Applications for both light duty and heavy duty vehicles

(Part No. VP201, 12 fl. oz. for light duty applications)

(Part No. VP202, 32 fl. oz. for heavy duty applications)

- Dissolves and removes deposits, gums and varnish from the diesel fuel system
- Utilizes keep-clean technology to minimize future fuel system deposits
- Provides 3 numbers of cetane boost contributing to peak engine efficiency
- Contains special lubricity additives to lubricate diesel fuel pump and injectors
- Helps reduce harmful exhaust particulate emissions
- Easy application - no specialized equipment needed

# FUEL RAIL ADAPTERS CHART

May be ordered individually from the Marketing Service Center

OE KITS	APPLICATIONS	Part No.	NAME	DESCRIPTION	
PORSCHE	AFC/LH JETR-PORSCHE	KE	Swivel Assembly - 12mm	To attach to 12mm supply port	
AMC	AMC	CK	Hose Plug - 5/16	To plug 5/16 OD return ports	
	AMC	CL	Hose Assembly - 5/16 Flare	To enter supply ports on systems with 5/16 flare fitting	
	AMC	CC	Hose Connector - 5/16 - 3/10	To connect disconnected clamped fuel lines (5/16 - 3/8)	
	AMC IMPORTS	CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports	
AUDI	AUDI	KD	Swivel Assembly - 14mm	To enter supply post	
BMW	BMW	CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports	
CHRYSLER	CHRYSLER	BF	Schrader Fitting - 90 degree	To enter fuel rails on system with large schrader valve	
	CHRYSLER	XS	Female Hair Pin - 90 degree	To enter systems with 3/8 qd connections	
	CHRYSLER	XT	Female Hair Pin - 90 degree	To enter systems with 5/16 qd connections	
	CHRYSLER	CA	Hair Pin Hose - Female	To enter systems w/hair pin supply connections	
	CHRYSLER	XE	Hair Pin Supply Adapter	To enter 3/8 fuel line or hair pin connections	
	CHRYSLER	CH	Spring Lock Adapter - 3/11	To enter 3/8 Spr. Lock supply ports	
	CHRYSLER	CK	Hose Plug - 5/16	To plug 5/16 OD return ports	
	CHRYSLER	CC	Hose Connector - 5/16 - 3/9	To connect disconnected clamped fuel lines (5/16 - 3/8)	
	CHRYSLER	BH	Large shrader hose	To enter fuel rail with large shrader valve	
	CHRYSLER IMPORTS	CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports	
	CHRYSLER/DODGE IMPORTS	BN	O-ring Adapter - 11mm	To enter fuel rail supply port	
	CHRYSLER/DODGE IMPORTS	BO	O-ring Adapter - 15mm	To enter fuel rail supply port	
	EUROPEAN	EUROPEAN CIS	CZ	Fuel Bolt Plug - 12mm	Use in combination to plug supply line when using banjo bolt in supply port
EUROPEAN CIS		CP	Fuel Bolt Plug Cap	Use in combination to plug supply line when using banjo bolt in supply port	
EUROPEAN CIS		CO	Fuel Bolt Plug - Double Hole	Use in combination to check fuel bolt connection	
EUROPEAN CIS		CR	Plug 12mm	To plug 12mm return ports	
EUROPEAN CIS		QE	Fuel Bolt - 12mm x 1.26	To attach to supply port	
EUROPEAN CIS		RE	Fuel Bolt - 12mm x 1.5	To attach to supply port	
FORD	FORD	XK	Hair Pin Male	1/4 (6mm) - To enter fuel systems w/qd 6mm connections	
	FORD	XJ	Supply Adapter, Female Hair Pin	1/4 (6mm) - To enter fuel systems w/qd 6mm connections	
	FORD	XT	Female Hair Pin - 90 degree	To enter systems with 5/16 qd connections	
	FORD	CD	Hair Pin Supply Adapter	To enter 5/16 fuel line or hair pin connections	
	FORD	CG	Hair Pin Plug - 5/16	To plug return line on 5/16 hair pin connections	
	FORD IMPORT	CH	Spring Lock Adapter - 3/8	To enter 3/8 Spr. Lock supply ports	
	FORD MPFI	BG	Schrader Fitting - 90 degree	To enter fuel rails on system with small schrader valve	
	FORD MPFI	CI	Spring Lock Adapter - 1/2	To enter 1/2 Spr. Lock supply ports	
	FORD MPFI	CE	Small schrader hose	To enter fuel rail with small shrader valve	
	FORD MPFI / TBI	CJ	Spring Lock Plug - 1/2	To plug 1/2 Spr. Lock return ports	
	FORD TBI	CB	Hair Pin Hose - 5/16	To enter systems w/hair pin supply connections	
	FORD TBI	CF	Hair Pin Plug	To plug return port on 1/4 hair pin connections	
	FORD TBI hi-pressure	CN	Plug 1/4 Flare	To plug return port	
	MAZDA	CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports	
	MAZDA	CC	Hose Connector - 5/16 - 3/12	To connect disconnected clamped fuel lines (5/16 - 3/8)	
	GM	GEO	CC	Hose Connector - 5/16 - 3/8	To connect disconnected clamped fuel lines (5/16 - 3/8)
		GEO	OE	Fuel Bolt - 8mm	To attach to supply port
		GM/GEO TBI	CK	Hose Plug - 5/16	To plug 5/16 OD return ports
GM/GEO TBI		CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports	
GM		BF	Schrader Fitting - 90 degree	To enter fuel rails on system with large schrader valve	
GM		XS	Female Hair Pin - 90 degree	To enter systems with 3/8 qd connections	

OE KITS	APPLICATIONS	Part No.	NAME	DESCRIPTION
GM (cont.)	GM	XT	Female Hair Pin - 90 degree	To enter systems with 5/16 qd connections
	GM	CA	Hair Pin Hose - Female	To enter systems w/hair pin supply connections
	GM	CH	Spring Lock Adapter - 3/10	To enter 3/8 Spr. Lock supply ports
	GM	BH	Large schrader hose	To enter fuel rail with large schrader valve
	GM	UE	Tube Nut - 16mm	To enter supply port with o-ring seat
	GM	UC	Tube Nut - 14mm	To plug return port
	GM EFI	QE	Fuel Bolt - 12mm x 1.25	To attach to supply port
	GM MPFI	CB	Hair Pin Hose - 5/16	To enter systems w/hair pin supply connections
	GM PFI	XE	Hair Pin Supply Adapter	To enter 3/8 fuel line or hair pin connections
	GM PFI	CG	Hair Pin Plug - 5/16	To plug return line on 5/16 hair pin connections
	GM TBI w/flare	CM	Plug 5/16 Flare	To plug return port with 5/16 flare fitting
	SATURN	BF	Schrader Fitting - 90 degree	To enter fuel rails on system with large schrader valve
	SATURN	BH	Large schrader hose	To enter fuel rail with large schrader valve
	ISUZU TBI	UE	Tube Nut - 16mm	To enter supply port with o-ring seat
	ISUZU TBI	UC	Tube Nut - 14mm	To plug return port
HONDA	HONDA	XK	Hair Pin Male	1/4 (6mm) - To enter fuel systems w/qd 6mm connections
	HONDA	XJ	Supply Adapter, Female Hair Pin	1/4 (6mm) - To enter fuel systems w/qd 6mm connections
	HONDA	XS	Female Hair Pin - 90 degree	To enter systems with 3/8 qd connections
	HONDA	BC	Female Banjo	To enter systems where 12mm bolt is accessed (for supply)
HYUNDAI	HYUNDAI	BN	O-ring Adapter - 11mm	To enter fuel rail supply port
	HYUNDAI	BO	O-ring Adapter - 15mm	To enter fuel rail supply port
	HYUNDAI	BP	O-ring adapter - 16mm	To enter fuel rail supply port
JAGUAR	JAGUAR	CK	Hose Plug - 5/16	To plug 5/16 OD return ports
	JAGUAR	CQ	Supply Fitting (1/4 - 3/8)	To enter 1/4 -3/8 ID & OD supply ports
	JAGUAR	CC	Hose Connector - 5/16 - 3/11	To connect disconnected clamped fuel lines (5/16 - 3/8)
JEEP	JEEP	CL	Hose Assembly - 5/16 Flare	To enter supply ports on systems with 5/16 flare fitting
KIA	KIA	XT	Female Hair Pin - 90 degree	To enter systems with 5/16 qd connections
	KIA	BN	O-ring Adapter - 11mm	To enter fuel rail supply port
	KIA	BO	O-ring Adapter - 15mm	To enter fuel rail supply port
	KIA	BP	O-ring adapter - 16mm	To enter fuel rail supply port
K-JETR	K-JETR	CZ	Fuel Bolt Plug - 12mm	Use in combination to plug supply line when using banjo bolt in supply port
	K-JETR	CP	Fuel Bolt Plug Cap	Use in combination to plug supply line when using banjo bolt in supply port
	K-JETR	CO	Fuel Bolt Plug - Double Hole	Use in combination to check fuel bolt connection
	K-JETR	CR	Fuel Bolt Plug - 12mm	To plug 12mm return ports
	K-JETR	QE	Fuel Bolt - 12mm x 1.27	To attach to supply port
	K-JETR	RE	Fuel Bolt - 12mm x 1.6	To attach to supply port
	L-JETR	CH	Spring Lock Adapter - 3/9	To enter 3/8 Spr. Lock supply ports
MERCEDES	MERCEDES	KD	Swivel Assembly - 14mm	To enter supply post
MITSUBISHI	MITSUBISHI	BN	O-ring Adapter - 11mm	To enter fuel rail supply port
	MITSUBISHI	BO	O-ring Adapter - 15mm	To enter fuel rail supply port
	MITSUBISHI	BP	O-ring adapter - 16mm	To enter fuel rail supply port
TOYOTA	TOYOTA	XT	Female Hair Pin - 90 degree	To enter systems with 5/16 qd connections
	TOYOTA	OE	Fuel Bolt - 8mm	To attach to supply port
	TOYOTA	PE	Fuel Bolt - 10mm	To attach to supply port
VOLVO	VOLVO	BG	Schrader Fitting - 90 degree	To enter fuel rails on system with small schrader valve
	VOLVO	KD	Swivel Assembly - 14mm	To enter supply post
	VOLVO	CE	Small schrader hose	To enter fuel rail with small schrader valve
ALL		883593	S-Tool Sprayer	To introduce cleaner into throttle body
ALL		VPS-2879	HOSE ASSEMBLY - DUAL	To attach S-Tool Sprayer when running dual / simultaneous application with Fuel Rail & Throttle Body Cleaners
ALL		882574	MAP Sensor Adapter	To introduce cleaner into the intake via the MAP sensor port
ALL		882576	MAP Sensor Adapter w/extension	To introduce cleaner into the intake via the MAP sensor port

# POWER STEERING SERVICE

Thermal cycling, extreme heat and pressure from everyday driving can break down the performance of the power steering fluid, leading to increased wear throughout the power steering system – including the pump, valves, gears, and seals. Common symptoms include stiff steering (typically during a cold morning start), soft-response or “play” in the steering wheel and whining noises or squealing (typically heard between idle & 2,000 rpms).

A Power Steering Service using Valvoline Professional Series Power Steering products helps to achieve optimal steering performance by reducing abrasive deposits and debris and replacing old fluid with the appropriate full synthetic power steering fluid.

## Full Synthetic Power Steering Kit

(Part No. 860342, 2-Part Kit)

## Full Synthetic Power Steering Kit for use in Honda or Acura vehicles

(Part No. 859119, 2-Part Kit)

## Full Synthetic Power Steering Fluid

(Part No. 860343, 32 fl. oz.)

## Full Synthetic Power Steering Fluid - for use in Honda or Acura vehicles

(Part No. 859070, 32 fl. oz.)

- Full-synthetic formula with protection against wear, copper, corrosion, foam and oxidation
- Protects against leaks, stiff steering and pump noise
- Optimizes steering performance-even in severe cold weather
- Helps extend the life of the power steering system
- 100% Solvent Free for safe and effective cleaning
- Honda/Acura specific formula to meet OEM specification
- Fluid exchange equipment needed

# TRANSMISSION SERVICE

Many transmission failures are due to overheating and fluid degradation. Conventional transmission services remove only a portion of the degraded fluid from the system. Any remaining old fluid diminishes the effectiveness of the new fluid and allows new deposits to form more quickly. These deposits reduce the ability of the fluid to cool properly, leading to further breakdown, overheating and ultimately transmission failure.

A Transmission Fluid Service using Valvoline Professional Series transmission products when replacing your fluid will help keep your vehicle shifting smoothly and minimize the risk of transmission failure and expensive repairs. Service now available for continuously variable transmissions to help smooth and maintain transition characteristics.

## Automatic Transmission Service Kit

(Part No. VP094, 2-Part kit)

- Universal formulation—safe to use with any ATF, except CVT
- Dissolves and suspends gums and varnish
- Reconditions seals and extends transmission life
- Helps maintain shifting characteristics
- Provides cooler operation
- Fluid exchange equipment needed

## Automatic Transmission, Protector, Conditioner & Sealer

(Part No. VP093, 12 fl. oz.)

- Conditions the entire transmission system
- Helps maintain shifting characteristics
- Conditions seals to prevent leaks
- Compatible with all types of ATF, except CVT
- Easy application - no specialized equipment needed

## CVT Service Kit

(Part No. 886395, 2-Part Kit)

## CVT Protector, Conditioner & Sealer

(Part No. 886238, 12 fl. oz.)

## Manual Transmission Fluid

(Part No. 508216, 32 fl. oz.)

- Balanced with a blend of advanced multifunctional additive technology, a shear resistant viscosity modifier and premium synthetic base stocks to provide optimal performance.
- Provides superior thermal and oxidation stability
- Excellent wear protection under high loads and extreme pressure
- Recommended for use in manual transmissions, transaxles and transfer cases where a GL-4 gear oil is required and/or specified as a service fill recommendation
- Easy application - no specialized equipment needed

# DIFFERENTIAL / DRIVELINE SERVICE

Differentials deliver the power from the transmission to the wheels. Extreme high operating temperatures can cause thermal breakdown of the differential fluid, leading to a loss of lubrication and deposit formation. This can cause gears to wear while leaving behind metal shavings and other debris.

Valvoline Professional Series products for Differential and Transfer Case Services are thermally stable and help remove deposits – while working to keep new ones from forming. This helps to ensure proper gear lubrication.

**75W90  
Full Synthetic Gear Oil**  
(Part No. 819195, 32 fl. oz.)

**75W140  
Full Synthetic Gear Oil**  
(Part No. 819196, 32 fl. oz.)

- Thermal Protection: Full synthetic base oil provides outstanding thermal stability for cleanliness and longer service life
- Corrosion Protection: Anti-corrosion additives protect parts from rust and corrosion
- Reduces Chattering: Special limited-slip (LS) additives eliminate/reduce chatter and shudder in limited-slip differentials
- Wear Protection: Extreme pressure anti-wear additives protect gear teeth from shock loading and high torque
- Flow Properties: Full synthetic base oil allows low temperature flow providing excellent low temperature and startup protection
- Exceeds API GL-5, SAEJ2360 (Military spec) and MT-1 specifications

**Differential, Transfer Case  
& MT Cleaner**  
(Part No. 667859, 6 fl. oz.)

- Works to remove harmful deposits and varnish from the entire driveline system
- 100% solvent free formula
- Prepares the gearbox and transfer case for new fluid
- Helps keep new deposits from forming

**Limited Slip Additive**  
(Part No. VP011, 4 fl. oz.)

- Enhances limited slip performance
- Designed to reduce chatter in plate and clutch type limited slip differentials
- Compatible with all API GL-5 gear oil limited slip applications, including fulltime 4-wheel drive transfer cases

# OTHER SERVICES

## All Season Heater & A/C Odor Eliminator Kit

(Part No. 507460, 2-Part Kit)

- Cleans and refreshes the entire HVAC system
- Immediately counteracts odors caused by mold, mildew, & fungus
- Helps reduce odor-causing micro-organisms and harmful allergens
- Improves air quality and increases A/C efficiency

## A/C Intake Spray Odor Eliminator

(Part No. VP105, 5 oz.)

- Circulates throughout the heater & A/C system to clean any residual microorganisms
- Alleviates foul odors
- Produces a slight spearmint fragrance
- Best results when used with VPS All Season Ultra Foam Evaporator Cleaner (Part No. 507671)

## All Season Ultra Foam Evaporator Cleaner

(Part No. 507671, 11oz) Hose (Part No. 590772) not included

- Cleans the entire HVAC system
- Immediately counteracts odors caused by mold, mildew, & fungus
- Helps reduce odor-causing micro-organisms and harmful allergens
- Improves air quality and increases A/C efficiency

## Battery Terminal Service Kit

(Part No. 591833)

- Instantly neutralizes and eliminates accumulated corrosive elements
- Helps extend battery life
- Provides increased cranking efficiency
- Anti-corrosion lifetime guarantee

## Windshield Cleaner

(Part No. 795505, 10 fl. oz.)

- Safely and effectively removes a range of contaminants from glass without streaking
- Ammonia-free formula will not damage tinted windows

# 15K VEHICLE RESTORATION KIT

A powerful blend of additives that rejuvenate fluids to help maximize performance and provide protection for a vehicle's critical systems - engine, fuel, transmission and cooling. Little to no labor required.

## 15K Vehicle Restoration Kit

(Part No. 884327, 4-part kit)

**UP TO \$4,000 PARTS & LABOR  
COVERAGE FOR EACH SYSTEM,  
FOR 15,000 MILES.\***

### ENGINE

#### Top Treat Oil System Cleaner

Effectively removes sludge, varnish & deposits

### FUEL SYSTEM

#### Complete Fuel System Treatment

Reduces rough idle & hesitation

### COOLING SYSTEM

#### Water Pump Lubricant & Protector

Protects against rust & corrosion

### TRANSMISSION

#### Transmission Protector, Conditioner & Sealer

Conditions transmission seals to help prevent leaks

Vehicles serviced with the 15K Vehicle Restoration Kit receive added protection - up to \$4,000 in engine, fuel, cooling, and transmission systems parts and labor protection for 15,000 miles. This can be extended as part of the Limited Lifetime Guarantee if coverage is maintained.\*

## STANDING BEHIND OUR PRODUCTS

Consumers have indicated that they find great value in the Valvoline Limited Lifetime Guarantee\*. In a recent Valvoline® Consumer Study, researchers asked consumers how likely they were to purchase a VPS service based on features and benefits with and without the guarantee.

## CONSUMERS ARE 19% MORE LIKELY TO PURCHASE VPS SERVICES WHEN PRESENTED WITH THE GUARANTEE

### GUARANTEE HAS VALUE ACROSS ALL CHANNELS

We captured consumers across all channels and asked them their warranty status and the value of the guarantee. These are the results.

- Dealer consumers = **35%** of dealer consumers not under warranty; **52%** of dealer consumers claiming value in guarantee\*
- ASC consumers = **52%** of ASC consumers not under warranty; **64%** of ASC consumers claiming value in guarantee\*
- Quick Lube consumers = **59%** of quick lube consumers not under warranty; **57%** of quick lube consumers claiming value in guarantee\*

SERVICE PROVIDER FOR  
YOUR NEXT SERVICE

Vehicle coverage based on mileage at the time of first service. Coverage takes effect after 500 miles /800 km. Taxes, miscellaneous fees, core charges & diagnostics not covered. See complete terms and limitations at [valvolineserviceplus.com](http://valvolineserviceplus.com)

# A CAR'S LIFE DEPENDS ON MORE THAN JUST AN OIL CHANGE AND SO DOES YOUR BUSINESS.

Valvoline Professional Series chemicals help ensure critical vehicle systems are free of harmful deposits or damaging build-up. Supported by manufacturer's service recommendations or mileage intervals backed by our Limited Lifetime Guarantee\*, these services go beyond the oil change and help your customers keep their cars on the road, while also helping to increase your average service order. Contact your Valvoline Business Representative to learn more about our enhanced training, incentive programs and selling tools that can help you grow your business.
