Automotive Hardware

Distributor Supply Company

Catalog 2011-2012

About Disco

Purchased in 1986, Disco Automotive Products started as a master distributor of automotive fasteners for the automotive aftermarket. Disco is a family owned business that saw the need to manufacture as well as distribute a large selection of OEM and specialty fasteners. Over nearly a quarter of a century, Disco has evolved into a complete line of Automotive products.

Our company goal
Complete Customer Satisfaction with our Products and Service.

We service our customer's needs through our worldwide network of authorized Disco distributors and market through traditional channels of distribution. Selling only to authorized distributors, we offer three types of packaging: small "unit package" quantities, a one price "retail program" and in large "bulk quantities". In addition, we offer a variety of assortments and merchandising aids.

The Disco catalog is a complete reference for the Automotive Hardware Industry. Our latest edition features OEM cross reference guides, actual size illustrations as well as complete specifications and dimensions.

Disco's management has over 100 years combined experience in selling and working with automotive hardware. We are committed to working closely with your sales staff to aide them in selling more products.

If you have any questions or concerns, please feel free to contact us.

**Hammerlock Type
Zinc Plated Cotter Pins**

Insert

Insert as you would any ordinary cotter pin. Hob-Lok pins have specially tapered parallel shanks for quick insertion.

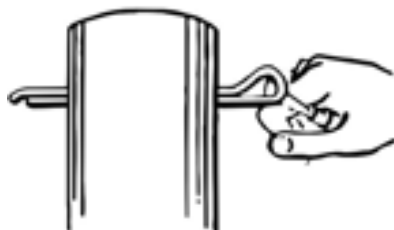

Hit with Hammer

Shanks Spread and Lock Themselves

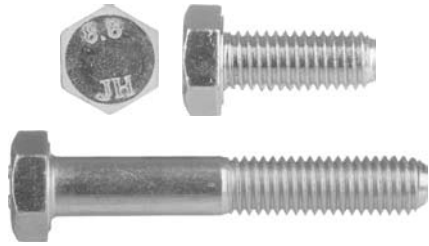

When hammer hits head of Hob-Lok pin, it forces the shorter shank down over the curved end of the longer shank, thus causing the lower ends of the shanks to spread apart. This simple operation locks the pin securely in place. No twisting or spreading of the shanks is necessary. It is all done automatically!

Twist to Remove

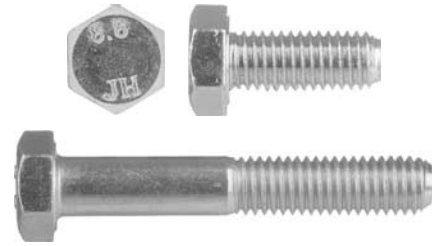

To remove, insert any small tool in eye of Hob-Lok pin. Twist shorter shank to original position and remove.

The image features a variety of service equipment scattered around the central text. On the left, there are three toolboxes: a small one at the top, a medium one in the middle, and a large one at the bottom. In the center, there is a small, open, light-colored storage bin. To the right, there is a large, open metal cabinet with three shelves. Below the central text, there is a wire rack with several vertical slots. At the bottom right, there is a large, open, multi-compartment storage bin. The background is plain white.

Cost Recovery Program

Disco's Cost Recovery System (Sold through Distributors Only) quickly and easily creates invoices for fasteners used in daily body shop repair. Once created, the invoice is submitted to the insurance company for reimbursement.

A "Quick Reference Form" that saves time in identifying and recording fastener part numbers is included. The system's "Price List" contains part number, description and price of each item and can be changed and/or added to as needed. Prices listed in this program are what Disco considers to be O.E.M. original Price.

- 9930** Complete Cost Recovery Program (Shown Above)
- 9931** Name Stamp (This adds name and address to the Program)
- 9932** Update Disk (Updates the Parts List within the Program)
